\$150 One Session

\$225 Both Sessions

## Essentials of On-Demand Writing

Effectively assess your students' learning in a real-world context. The goal of on-demand writing in the statewide assessment system is to measure students' application of the writing standards. In this three-hour workshop, teachers will:

- learn the essential elements of on-demand testing
- examine the characteristics of each mode of writing
- learn strategies for improving writing instruction in the classroom

This nuts-and-bolts workshop is ideal for beginning teachers or experienced teachers who have moved into a writing assessment grade level.

## Teacher's Toolbox

Our Teacher's Toolbox is a three-hour exploration of the greatest hits of the research-based instructional strategies that teachers request most:

- engaging students
- differentiating instruction
- closing achievement gaps
- developing a growth mindset
- using brain-based discipline techniques

This session is stocked with the top strategies. The result: an achievement-focused session where proven strategies are modeled, discussed, and implemented to help teachers reach higher levels.
